PRESS RELEASE

The Minister of State, Minister of Higher Education, Chancellor of Academic Orders, Professor Jacques FAME NDONGO, has the honor to inform the National University Community and the general public that a ranking of the institutions having presented candidates for the National Examinations of 'Brevet de Technicien Supérieur (BTS) and Higher National Diploma (HND) 2022 session, has just been carried out by his Ministerial Department. This press release is intended to render official the statistics for the different national examinations for the 2021-2022 academic year.

The publication of this document contributes to the need to make public the success rates realised by Private institutions of Higher Education (PIHE) during the last examination session and constitutes a source of emulation that can enable PIHE officials and Promoters to improve on their performance.

Three major criteria were retained, for this ranking of institutions, namely; enrolment size (a number of 100 candidates was adopted as the certification size), admission options (the most promising options in terms of exam admission) and the number of successful candidates during the 2022 session.

The unranked institutions are those that do not meet the enrolment size.

To this effect, the ranking of institutions for the 2022 examination session is as follows :

1- Overall BTS ranking by success rate.
